EDUCATION

BSC Honors in Forestry & Environmental Science, Shahjalal University of Science and Technology

SKILLS

- Python (Pandas, Numpy, Matplotlib, Seaborn, Plotly)
- Machine Learning (Scipy, Scikit-learn)
- SQL
- PostgreSQL
- Power Bi
- MS Excel
- MS Powerpoint
- MS Word
- Storytelling
- Analytical Skill

EXPERIENCE

I have 1 year experience on scientific research in SUST. I have conducted predictive analysis on forest condition.

OBJECTIVE

I am an expert over 2 years of experience in collecting, cleaning, and analyzing large datasets to extract meaningful insights and contributed to developing reports and dashboards to visualize key performance indicators. I have conducted exploratory data analysis using Python, SQL, Power BI, and Excel to identify trends and patterns for business optimization. I can work in various fields including business, research, healthcare, weather, criminal justice, science, government data etc. Please check my portfolio: https://github.com/SHAKIL-The-Analyst/All-Projects.git

PROJECTS

Python projects:
- Superstore sales analysis with hypothesis testing
- Hotel booking analysis
- Popular diagnostic center analysis
- Amazon sales analysis
- Diwali sales analysis
- Supermarket sales analysis
- Titanic project

Machine Learning:
- _
- _
- _

SQL Projects:
- Music store analysis
- Pizza hut sales analysis
- Northwind Sales data analysis
- _
- _

Power Bi Projects:
- Human resource analytics
- Madhav ecommerce sales dashboard
- Papollo healthcare analysis
- Superstore sales dashboard

Excel Projects:
- Bike sales data analysis
- Coffee orders analysis
- Coffee shop sales dashboard
- Vrinda store data analysis & report
